## CAREER OBJECTIVE

Balancing a job while attending classes as a full-time student is not easy. Only through relentless focus and prioritization is it made possible. I aim to continuously enhance my skill and contribute to the advancement of decision making in organization. With my knowledge I want to contribute to the growth and success of an innovation.

## WORK EXPERIENCE

### Web Development

#### College Library Website

📅 2023 - current

📍 Indore, India

- Have been doing the work of college professor's such as making a library website for college with my peer.

## PROJECTS

### IPL Power-Play Score Predictor

📅 2023

- The main objective of the ML model was to predict the scores of the IPL Team in 6 overs.
- This project only consists of backend only and was made for the Machine Learning Hackathon.
- The Machine Learning was conducted by NPTEL and out of the 200+ model my model ranked 24<sup>th</sup> in position.

## EDUCATION

### BS (4-years) [Data Science and its Application]

#### IIT MADRAS

📅 2021-2026

📍 Chennai, India

🎓 CGPA: 8.9

### MTech(5-years) [Information Technology]

#### IIPS DAVV

📅 2021-2026

📍 Indore, India

🎓 CGPA: 8.02
